Subject: RE: Area Averaging bs Not to Exceed?

Didn't Stuart recant his remarks about "not to exceed?"

Subject: Area Averaging bs Not to Exceed?

Dear Rob,

Dan Hirsch had talked about your averaging approach. Later I got this question from Stuart Walker. Can you help explain? Thanks!

"Are you using Area Averaging (AA) for chemicals at Hunters Point? Our guidance in the Q&A is use Not to Exceed (NTE) or AA for both chemicals at the same site. Usually residential land use means using NTE."
